TAPED INTERVIEW WITH:

**J.B. HOLMES  
STEVE FLESCH**

**Q. How is it going to be tomorrow for you guys, playing 36?**

J.B. HOLMES: It's going to be like college again, playing 36 in one day. It happens, and everybody else is going to do it, too, so just have to go out there and deal with it.

**Q. Is it exhausting to think about 36?**

J.B. HOLMES: It may be exhausting to play 36 holes, you're putting that much mental effort and everything into it, it's rough.

**Q. How much do you think this much rain is going to change the way this course is playing?**

J.B. HOLMES: You know, we'll see. They have got 12 hours or so to work on the golf course, and it needed a little bit of rain so, we'll just see what happens.

**Q. Getting off to a good start today, then going into a delay --**

STEVE FLESCH: Yeah, it would have been nice to ride that little bit of momentum that I had going, and hopefully tomorrow I can still do it.

And if we've got to play almost 36 holes -- I don't really see us ever finishing 36 holes tomorrow, but one of those things where if you can play as much golf as you can and you're gone a good roll, it's fun to play.

**Q. How much do you expect the course to change tomorrow?**

STEVE FLESCH: That to me is the most curious thing about this delay is the amount of moisture that's soaked up. I don't expect the fairways to be that much softer because they drained so well. The greens are a little bit softer and a little bit slower. I look for guys to, one, actually have a chance of knocking it at the hole, and two, making more birdies.

**Q. Did the 65 surprise you?**

STEVE FLESCH: Not really because what I saw on the first couple of holes, if you can get the ball in the fairway, the greens are just soft enough where you can get at them. I kind of look for somebody to do that in the third round, and maybe in the fourth, because they cannot dry them out that much in a day.

**Q. How much challenging will tomorrow be no matter how much you play?**

STEVE FLESCH: It really will be challenging, because that rough, even though everything else is going to be softer, that rough is going to be thicker and heavier now. It's one of those things where you just hope you get off to a

good start and you don't have to battle it anymore.  
It's already hard enough and we don't want it make  
it any harder than it is.

I'm thrilled, I got off to a great start and put  
myself in a tough spot on the sixth hole for my  
second shot, but hopefully it will work out good  
tomorrow.
